What is the matter with the corn? is the absorbing question among the farmers at present. Some think it has been the frost and continued cold weather that is working destruction to the corn crop: some claim that there are insects working at the rout of the corn. Take it all together its rather discouraging to the farmer at this time.

# WORLD'S FAIR ART PORTFOLIOS

Almost everyone has taken up some coupon scheme by which they have procured a set of World's Fair Art Portfolios, commemorative of the many interesting features of the greatest of the world's expositions.

The Fair is dead. Long live the Fair! Let us carry in our minds all "the glory that was of Greece and the grandeur that was of Rome" as we saw it in the days of its existence if we will, but when we are passed away what avails our recollections? Let us do better. Artists have captured all this fugitive splendor with trusty camera and practiced pencil, and many splendid series of views of its art and architecture, its landscapes and waterways, its exhibits and curiosities, are the result - and the very best result. It is the Fair over again for ourselves and our children and their children-to the end of time, if they but preserve it. Let us take the initial step and have the parts of the Art Portfolios bound, that none may be lost or injured.
